REASONS FOR ALLOWANCE

1. The amendment filed 7/31/2006 has been entered. Claims 1-10 are pending in this Office action.

Allowable Subject Matter

2. Claims 1-10 are allowed.

3. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses a phase detector for a phase locked loop for digital input signals in which the digital summed value for a particular number of bits is equivalent to zero, said phase detector having a plurality of sampled and digitized digital sample value being supplied to said phase detector, comprising a delay stage for delaying the digital sample values by one or more sampling clock periods, a subtraction stage, to which the undelayed and the delayed digital are supplied to produce a differential value, and a filter or control stage, to which the output of the subtraction stage is supplied at the output of the filter or control stage which a phase error can be tapped off, characterized in that a processing stage is provided, located between the subtraction stage and the filter or control stage, which assigns one of a plurality of possible output values, to the differential value, wherein a full differential value range is subdivided in a number of sub-ranges corresponding to the plurality of possible output values, so that each differential value falling within one of the sub-ranges will get a same output value assigned.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
